Scientific and technical translations from German to English
Serving business, industry, government and the law since 1972

Specialties:

- Patents
- Earth sciences with associated fields such as remote sensing and geographic information systems
- Physical sciences; mechanical and chemical engineering

Subjects not offered:

- Medicine, biology, pharmacology
- Business, finance
- Law other than patents and trademarks

Rates and turnaround times: by quotation

Selected publications:

- *Deep Injection Disposal of Liquid Radioactive Waste in Russia*, by A.I. Rybal'-chenko et al., ed. by Michael G. Foley and Lisa Ballou. Battelle Press, 1998
- *Industrial Color Testing*, by H.G. Völz. VCH Publishers (now Wiley-VCH), 1995; revised second edition, 2001
- *Electrophysical and Electrochemical Phenomena in Friction, Cutting, and Lubrication*, by S.N. Postnikov. Van Nostrand Reinhold, 1978

Background:

- B.A. (Physics), Rice University, 1967
- Previous employment with Union Carbide Corporation (Oak Ridge, Tennessee), Houston Independent School District, University of Texas at Austin
- Membership in American Translators Association since 1974; service in national offices 1975-83

Services regrettably not offered:

- On-site services
- Interpreting
- Revision, editing, evaluation, critiquing
- Proofreading (whether you mean "reading proofs" or, in the sloppy current usage, revision)

I look forward to your inquiry about translation services.
